Oncofertility – Innovative Care & Technologies

Dates: 16th – 18th December 2022

Venue: Kochi Marriott Hotel, Kochi, Kerala

Welcome Message

Dear Friends and Colleagues,

Welcome to a Global Fertility Preservation event organized by “Fertility Preservation Society“ (India). Fertility Preservation is now widely accepted as ‘Standard of Care’ for patients at risk of reduced fertility resulting from cytotoxic drugs, genetic predisposition, autoimmune disease and age. It is also being considered for some benign but progressive gynaecological conditions like endometriosis. Appropriate patient selection for fertility preservation, management of cancer, and careful follow-up within a multidisciplinary setting is critical. Fertility Preservation Society (India) has invited doyens in the field of fertility preservation to share their knowledge and expertise through hands-on workshops, case discussions and didactic lectures. This meeting will provide a platform for Oncologists, ART specialists, Gynaecologists and embryologist to exchange information and treatment strategies. We welcome young investigators looking to share their research.

The global participating societies are:

ASFP - Asian Society for Fertility Preservation

ISFP - International Society for Fertility Preservation

JSFP - Japanese Society for Fertility Preservation

KSFP - Korean Society for Fertility Preservation

IFSP - Indonesian Society for Fertility Preservation

PSFP - Philippine Society for Fertility Preservation

TSFP - Taiwan Society for Fertility Preservation

TSFP - Turkish Society for Fertility Preservation

BSFP - Bangladesh Society for Fertility Preservation

MSFP - Malaysian Society for Fertility Preservation

Please mark your calendar for this exciting event! We look forward to welcoming you in Kochi, Kerala.

Warm Regards,

Dr. Madhuri Patil
Organizing Chairperson

Dr. P M Gopinath
